### SEPTEMBER WORKSHOP:

I'm really excited to get to Chattanooga next month to teach **Cold Wax Medium** for 4 days!

For those who have not taken this course from me, we cover numerous ways to use this highly popular medium. You can work with it in representational art, or, if you want to try something new, you can use it both representationally and mixed with abstraction, or, pure abstraction.

I teach printmaking-style techniques with direct and indirect transfers of paint and removal of layers to find the "history" beneath. We paint with pigments and other materials like marble dust and sand. We do mark-making techniques using all sorts of methods, some stenciling and collaging. And one of my favorite things to do -- we paint with **R&F pigment sticks** mixed with the cold wax to get luminous colors both beneath our work on paper and on the top of our semi-dried panels pieces too.

**I'm pleased to announce that R&F Pigments sticks will be providing my workshop with samples to try.**

### SIGN UP NOW!

We cover so many things like discussions on composition, color mixing, mediums, substrates, brayering, palette knife painting, veiling color, dissolving paint layers with Citrasolv and more.

**If you have never tried using Cold Wax Medium with oil, don't wait!** And if you've done this before, you can

learn new ways to work with this medium and deepen your practice as a painter.

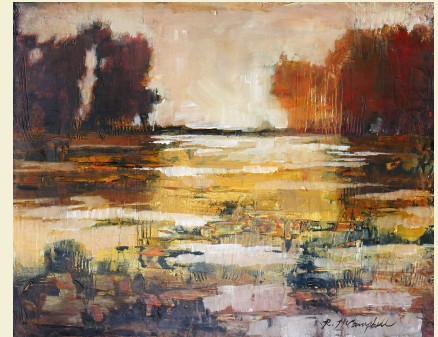

Dates and Times:

**September 9 - 12, 9 am to 4 pm.**

Bring your lunch. Supply list will be provided.

**BONUS:** And, on Thursday night, we have an optional extra adventure to go to either the Hunter Museum or to paint a live figure model in the **Townsend Atelier Studio** that evening (cost not included in tuition price).

Price: \$625
